

# Contents

Preface	vii
Contributing Authors	xvii
Part I GENERALIZED CONVEXITY	
1	
Introduction to Convex and Quasiconvex Analysis	3
<i>Johannes B.G. Frenk, Gábor Kassay</i>	
2	
Criteria for Generalized Convexity and Generalized Monotonicity in the Differentiable Case	89
<i>Jean-Pierre Crouzeix</i>	
3	
Continuity and Differentiability of Quasiconvex Functions	121
<i>Jean-Pierre Crouzeix</i>	
4	
Generalized Convexity and Optimality Conditions in Scalar and Vector Optimization	151
<i>Alberto Cambini and Laura Martein</i>	
5	
Generalized Convexity in Vector Optimization	195
<i>Dinh The Luc</i>	
6	
Generalized Convex Duality and Its Economic Applications	237
<i>Juan Enrique Martinez-Legaz</i>	
7	
Abstract Convexity	293
<i>Alexander Rubinov, Joydeep Dutta</i>	

vi	<i>GENERALIZED CONVEXITY AND MONOTONICITY</i>	
8	Fractional Programming	335
	<i>Johannes B.G. Frenk, Siegfried Schaible</i>	
	Part II GENERALIZED MONOTONICITY	
9	Generalized Monotone Maps	389
	<i>Nicolas Hadjisavvas, Siegfried Schaible</i>	
10	Generalized Convexity and Generalized Derivatives	421
	<i>Sándor Komlósi</i>	
11	Generalized Convexity, Generalized Monotonicity and Nonsmooth Analysis	465
	<i>Nicolas Hadjisavvas</i>	
12	Pseudomonotone Complementarity Problems and Variational Inequalities	501
	<i>Jen-Chih Yao, Ouayl Chadli</i>	
13	Generalized Monotone Equilibrium Problems and Variational Inequalities	559
	<i>Igor Konnov</i>	
14	Uses of Generalized Convexity and Generalized Monotonicity in Economics	619
	<i>Reinhard John</i>	
	Index	667
